EDUCATION

Computer Systems Technology - Software Development & Network

Engineering Advanced Diploma

January 2023 - December 2025

Sheridan College, Oakville ON

- Relevant Coursework: Java Enterprise (Object-Oriented Programming), Data Structures and Algorithms, Web Programming, Cloud Enabled Networks, Database Design and Implementation
- Clubs: Workshop Coordinator at Google Developer Student Club
- GPA: 3.66 / 4.0

Honours Bachelors of Arts - Political Science

June 2012 - June 2017

Brock University, St. Catharines ON

EXPERIENCE

Junior Software Developer Intern (Co-Op), Skill Squirrel, Mississauga ON

January 2024 - May 2024

- Resolved frontend and backend issues as assigned on Jira
- Addressed layout issues, including problems with tables and lists, enhancing visual quality and interactivity of web pages
- Worked closely with senior developers to resolve complex issues
- Ensured all resolved tickets were thoroughly reviewed and tested before merging into main codebase
- Tech stack: React.js, JavaScript, HTML, CSS, Git, Jira

Strategic Account Manager, Total Power Limited, Mississauga ON

April 2018 - September 2022

- Served as primary contact for correspondence between the customer, subcontractors and technicians to ensure efficient resolution of issues and timely project execution
- Handled all aspects of national accounts, including billing and tracking completion of safety procedures, SOWs, and MOPs
- Streamlined billing process, directly resulting in a 150% increase in billing accuracy and a 50% decrease in the billing workflow process

PROJECTS

Java Spring Boot Bookstore Application

Technologies Used: **Java, Spring Boot, Spring DevTools, Spring Web, Spring Security, Spring Sessions, Lombok, Thymeleaf, Git**

- Developed a **Java Spring Boot** application for a bookstore with user registration and login functionality
- Utilized SQL database to store user data, book information, and shopping card details
- Implemented features allowing users to select and view books, add books to their shopping cart, change quantities, and proceed to checkout
- Ensured a secure and user-friendly experience through proper authentication and authorization mechanisms
- Developed the front-end user interface for the bookstore using **HTML, CSS, and JavaScript**

Expense Tracking Application

Technologies Used: **Java, JavaFX, File I/O, Password Hashing, Scene Builder, Git**

- Developed a **Java**-based expense tracking application that allows multiple users to register and log in, create expense lists, assign expenses to different users and calculate individual user totals
- Developed the application's GUI using **JavaFX** and **Scene Builder** that comprises several screens
- Stored user login credentials securely using hashing methods
- Ensured a well-structured and maintainable codebase by implementing the **Model-View-Controller** architectural pattern to separate responsibilities

TECHNICAL SKILLS

Programming Languages: Java/J2EE, C, C#, React, JavaScript, TypeScript, HTML, CSS

Frameworks and Libraries: JUnit, Spring Boot, React, Angular, Node.js

Database Management: SQL (MySQL, PL/SQL), MongoDB

Software and Tools: Git, Jira, IntelliJ, CLion, Eclipse, Visual Studio (Code), Visual Paradigm, Azure Data Studio, Studio 3T

Cloud Computing: Amazon Web Services (AWS)
